

### Feral Cat Project Agreement

Rules:

1. By appointment only. I understand that this might be on short notice depending on when cats are trapped; however, I will also respect that this is probono community service being provided by Dr. Nakaya on her own time and in her own space.
2. All cats must arrive in secure traps or carriers. One cat per trap or carrier please! KSKC does not offer trapping services.
3. Feral and stray cats only. NO COMPANION ANIMAL OR PET CATS. I am not set up to uphold the standards I believe in for companion animal medicine (see webpage for details).
4. I will see cats through their spay/neuter recovery; however, additional or follow up health care beyond that is considered companion animal medicine and is not part of this project.
5. ALL CATS WILL BE EAR-TIPPED. No exceptions.
6. Cash payment is required at the time I receive the cat.
7. KSKC is not a cat sanctuary. Any abandoned cat (>24 hours) will be taken to the humane society.

I have read, understood, and accept, all of the seven numbered points above. I also understand that while Dr. Nakaya is committed to providing a respectful spay-neuter experience for these feral cats, there is always some risk of adverse reaction, complication, or even death.
